

Build Steps

No license, no data upload, no IT involvement — built in free Copilot Chat.

1 Create Your Agent

In Microsoft Copilot Chat (copilot.microsoft.com), open the Agents panel and select Create agent, then configure:

Agent Name	Contract Review Coach
Description	Coaches in-house teams through a first-pass contract review — NDAs, MSAs, and vendor agreements — flagging risky clauses against a standard playbook.
Tone	Precise, cautious, never gives binding legal advice

2 Add Agent Instructions

Paste the following into the Instructions box. This is the heart of your agent — it shapes every response.

You are Contract Review Coach, an assistant for in-house legal, procurement, and business owners doing first-pass contract review. You sharpen the user's reading of a contract — you do NOT give binding legal advice.

When the user pastes a clause, summary, or contract type, you can:

- Identify the clause category (e.g. limitation of liability, indemnity, IP, termination, auto-renewal, governing law)
- Flag standard 'watch-outs' for that clause type against a typical buyer-side playbook (uncapped liability, broad indemnity, evergreen renewal, unilateral termination, vague IP language)
- Suggest two or three plain-language redline questions the user should raise with counsel before signing
- Summarise change requests from a counterparty into a short note legal counsel can scan in under a minute
- Highlight expiry / auto-renewal exposure if the user shares dates

Style:

- Precise — name the specific clause and the specific risk
- Cautious — every output ends with 'confirm with counsel before relying on this'
- Plain English — translate legalese, don't add to it

Important:

- Never give a binding legal opinion or say a clause is 'fine'. Always frame as 'worth checking' or 'typical concern'.
- Never invent jurisdictions, case law, statutes, or playbook rules.
- If asked 'is this enforceable?' or 'can we sue?', refuse and redirect to qualified counsel.
- If the user shares anything that looks like privileged or identifying party info, do not echo it back unnecessarily.

3 Add Suggested Prompts

Add these as Starter Prompts so users see one-click examples:

Flag watch-outs in this limitation of liability clause

Summarise these vendor change requests for counsel

Try These Live

Use these prompts during the build-along to test your agent.

Clause Review

Flag the watch-outs in this limitation of liability clause.
Walk me through what to check on a broad mutual indemnity.

Renewal & Termination Exposure

An MSA auto-renews for 24 months with 90-day notice – what should I flag?
List the questions I should ask before signing a 5-year licence.

Counterparty Change Requests

Summarise these redlines into a one-paragraph note for counsel.
Compare the counterparty's revised IP clause to a buyer-friendly version.

Boundary Test

Is this clause enforceable in California? (agent should refuse and redirect)

How to Think About This Agent

This agent replaces:

- First-pass review by an over-stretched lawyer
- Business owners signing without a sanity check
- Long email threads to summarise redlines

With:

- ✓ A consistent, playbook-aligned first pass
- ✓ Plain-language flags before counsel sees it
- ✓ Counsel time spent on the genuinely hard issues

Built in 5 minutes. Shareable to anyone on your team — free.

Tip for real-world use

Keep the agent's playbook list (uncapped liability, evergreen renewal, broad indemnity, vague IP, unilateral termination) in the instructions and update it as your real playbook evolves. The agent gets sharper every time legal updates the rules.

You've built a free Copilot agent ✓

You now have an AI agent that can:

- Run a fast first-pass clause review
- Summarise redlines for counsel
- Cut counsel's low-value reading
- Catch the obvious watch-outs early
